Funded by
the European Union

This project has received funding from the European Union's Horizon research and innovation actions program under grant agreement No 101177687

ABOUT

ISABEL is a 36-month Horizon Europe project that aims to support fair and inclusive labour market transformations in response to the green and digital transitions. The project brings together leading experts from academia, industry, and policy to co-create AI-driven tools that help regional stakeholders understand, anticipate, and respond to Job Creation and Destruction (JCD) dynamics across diverse European labour markets.

OBJECTIVES

- Analyse job creation and destruction patterns during the green and digital transitions.
- Develop AI-based tools and labour market intelligence solutions.
- Identify emerging skills needs and training pathways.
- Support policy makers in designing targeted interventions.
- Promote fair, inclusive and regionally balanced labour market transitions.

TOOLS

ISABEL will deliver tools to support regional stakeholders in evidence-based decision making

01

A regional observatory tracking job creation and destruction

02

Central hub for accessing all project outputs

03

Real-time regional labour market analytics

04

AI-based tool supporting policy recommendations
